### THE GAZETTE.

THURSDAY EVENING, OCTOBER 26.

ECLIPSE OF THE SUN .- On the 12th of next December there is to be a total eclipse of the sun. It will be visible close by Arabia first, in the open sea. It will traverse the northern part of the Indian peninsula. It will thence pass across the northern extremity of Ceylon. It will not touch land again until it reaches the south of Sumatra and the western extremity of Java. Thence it will cross the northern parts of Australia, and, except in some of the smaller islands of the Polynesian group, it will not be seen again on land. The governments of Europe, particularly that of Great Britain, are preparing to send out expeditions to the available of the send out of the send out of the send out the s able points of observation, and it is stated that some of the best astronomers of Great Britain and France, are determined to find their way to Java, and from that point of observation to examine once more, with all the aid that science

can give, the sun's corona.

The U. S. will not participate with the European governments. The corps of observers at the National Observatory would cheerfully have accepted the invitation of the British astronomers to co-operate with them, but owing to the protracted absence last year in making observations of the eclipse in southern Europe, the routine work of the Observatory is very much behind.—Washington Republican.

FANNY ELLSLER.-The once celebrated danseuse, Fanny Ellsler, is now said to be living quietly at the Hague, occupying most of her time in raising flowers, of which she is passionately fond. Roses are her favorites, and she has raised one particular kind which has for some time borne ther name, and which is much prized in Holland. Though she danced before our grandmothers, she has entered only very recently, on her 61st year. She is much esteemed in the Dutch capital for her numerous deeds of charity.
